Title of Activity: Helping survivors of trauma: Partners in advancing humanistic care

Total Number of Contact Hours: 1.0

Internet Enduring Material

Launch Date: 3/15/2021

Expiration Date: 3/15/2024

Target Audience

This program is intended for physicians, dentists, nurses, allied health professionals, and any other medical professional that treat and care for Holocaust survivor patients and other survivors of trauma.

Objectives

- ✓ Differentiate Holocaust survivors from other elderly patients in a healthcare setting.
- ✓ Identify situations that may trigger trauma for a Holocaust survivor during routine healthcare activities.
- ✓ Explain how a person-centered, trauma-informed (PCTI) approach can be used to reduce Re-traumatization of Holocaust survivors and other victims of trauma.

Instructions to receive contact hours:

In order to receive 1.0 contact hour from NJSNA for this activity, the participant must complete the interactive enduring activity in full; which consists of the pre-survey, view of content and videos, a score of 100% on the knowledge check questions, and the post-module survey. Additionally, the participant must complete the post-activity evaluation, linked after the post-module survey.
